Japanese-German Evening Talk on Data Spaces

May 15\textsuperscript{th}, 2024 at ARENA2036, Stuttgart (Germany)

**From the European perspective**: Understanding the Japanese viewpoint on data spaces and getting to know Japanese goals and requirements.

**From the Japanese perspective**: Get to know the European data space approach. Clarify the relevance and the potentials for Japanese companies.

- Identify Japanese input regarding the interoperability between Ouranos (LINK) and Catena-X (LINK)
  - Benefits of joint open-source collaboration on a global scale
  - Definition and priorities for next steps (joint exploration process)

Working out requirements for the creation of interoperability on a global scale. Follow-Up: Invitation to a joint workshop series

First Jap.-Germ. Evening Talk 15.5.
Second Eclipse Tractus-X Community Days 16.-17.5.
Joint exploration process and workshops (time, topic and data space set-up to be defined)
Third Eclipse Tractus-X Community Days 5.-6.12.
# Japanese-German Evening Talk on Data Spaces

**May 15th, 2024 at ARENA2036, Stuttgart (Germany)**
