

DESIGN FACTORY STUTTGART IS HIRING!

Are you searching for an interdisciplinary working student job?
With innovative method support?
At the Research Campus ARENA2036 we got you covered!

Start:
April 2023
Duration: 4 months

WE ARE LOOKING FOR YOU, IF YOU WANT TO...

- work on data analytics of sensors in the context of IoT applications
- work hands-on and bring in your ideas
- work in an interdisciplinary team of students
- use creative and innovative methods
- work 10-15h per week

YOU HAVE EXPERIENCE IN ONE OR MORE OF THE FOLLOWING TOPICS:

- Knowledge in the context of Azure and data collection and processing
- Programming of microprocessors (Arduino/ESP32) with Arduino IDE
- Transfer of sensor data per MQTT / JSON / HiveMQ
- Visualization with Grafana/PowerBI or similar

Communication: English or German
Presentation of results: German
